

Meritor Parts

Meritor Part - The Meritor Company is a premier global dealer built upon one hundred years of tradition of service and quality. Meritor specializes in integrated systems with different modules and parts to the original machine manufacturers and aftermarket equipment within the transportation and industrial trades.

Meritor prides itself in the company's distinctive energy and thinks that this particular energy contributes to their competitive advantage within the international operations. The company values their clients and would like to ensure their success while anticipating their diverse requirements. Meritor starts with a culture which values diversity of individuals and their broad thought processes. Operating in 19 nations and employing over eleven thousand two hundred people, Meritor encourages collaboration and innovation amongst a team of knowledgeable professionals.

By only employing future focused workers, Meritor strongly thinks these top-caliber workers would be able to rapidly get used to to changing environments and demonstrate the commitment and performance needed in order to achieve results in the competitive materials handling market. The company empowers their teams to make sound business decisions to be able to enhance the overall success of the company. In return, Meritor offers all of their staff various chances for professional and personal development.

Their Advanced Engineering team is at the forefront of parts and system engineering which comprise drivelines, axles, braking and suspension systems intended for heavy duty and medium trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is growing. They started a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives that represent the entire Asia Pacific region. This particular team is even responsible for supporting the needs of all their international engineering employees.

Meritor's customer focused and dynamic Quality team is devoted to ensuring optimum processing at their aftermarket distribution facilities and production plants which are situated around the world in 19 nations and in 5 different continents.

The supplier development network is specifically located in order to support new business development. Regional teams are supported by global quality systems, centralized specialties and initiatives in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program promotes a fact-based, data-driven approach to decision making in each part of the company. The DFSS or Design for Six Sigma ensures product reliability in each region. The [Nissan parts](#) team is even included transactional Green Belts who utilize Six Sigma tools to business processes and apply lean techniques.
