

## Komatsu Forklift Part

Komatsu Forklift Part - Komatsu Forklift U.S.A. Inc., an associate of the Komatsu Ltd. family, has an encouraging reputation for building durable and reliable forklifts. They are known worldwide as a company who has a proud heritage and who maintains a benchmark of excellence in equipment production and intention.

Komatsu Forklift U.S.A., Inc., a division of Komatsu Forklift Co., Ltd., International Division and Komatsu Utility Co., Ltd remains loyal to their image of a healthier tomorrow. Komatsu's legacy started back in 1921, in Japan, when Komatsu Ltd commenced operations as a producer of construction and mining equipment. Very quickly the business grew into an industry leader and was responsible for building Japan's first modern bull dozer and farm tractor.

Over the previous couple decades, Komatsu has developed to become a international giant due to their strength and expertise within the various fields of logistics, excavating, construction and mining. With modern designs and technological superiority, they remain at the forefront of these industries.

Evolving in 1945, Komatsu Forklift Co., Ltd has expanded immensely. Using their first-class manufacturing capabilities and progressive design techniques, Komatsu has become renowned to manufacture the kind of durable and dependable lift truck that clients across the world have come to rely on. In 1976, Komatsu Forklift U.S.A., Inc was established to satisfy the mounting need for its goods in the North American market. To improve expenditures and efficiencies, a state-of-the-art facility was built in Covington, Georgia in 1990, to merge all U.S. Komatsu Forklift product support and production operations.

Remaining one of the primary suppliers and makers of rugged and innovative forklifts at the moment, Komatsu Forklift U.S.A., Inc continues to satisfy their customers' desires worldwide. Central and Latin America, Mexico, the Caribbean and South America are home to many of Komatsu's satisfied customers along with their North American consumers.

After years of providing customer service and maintaining rapport, Komatsu Forklift recognizes that meeting the customers' wishes is vital. All new product improvement at Komatsu starts first with the consumer. By welcoming input and opinions, they are able to establish client wishes and expectations then develop progressive concepts and then build to exceed Komatsu Engineering Principles. Assuring customers that quality is planned from the start and sustained through the production, service and sales processes, allows Komatsu to end up with a superior product from start to finish.

The engineers at Komatsu are experts who concentrate on designing heavy-duty technologies, forklifts and construction equipment. Their design expertise assures that each piece of equipment will endure in even the toughest applications and environments. Adherence to stringent engineering standards allows Komatsu Forklift to satisfy ISO 9001 standards. Computer aided design and strict internal quality standards all factor in to top-quality lift truck products. Komatsu Engineering Standards translate the modern and innovative technology used in advanced mining and construction equipment into world class equipment.

The state-of-the-art facility in Covington, Georgia has all the needed requirements for full scale production. This facility is able to take unprocessed steel and manipulate it by preparing, welding, and fashioning it. When assembled and painted the lift trucks are ready to leave the facility and enter the market. Maintaining quality control through the duration of the manufacturing process, assures customers that the quality is built into Komatsu's products from the very beginning.

Komatsu feels that a product is only as valuable as the individuals who support it and sell it, their dealers make all the difference. Komatsu Forklift boasts an exceptional network of company sellers and independent sellers who are working hard to exceed expectations. Specialized in all aspects from sales, service or operating training, or aftermarket support, their diverse network of experienced and capable experts are available. Komatsu Forklift Supplier locations across the nation have a Komatsu OEM parts on-hand to offer the necessary service required to keep customers' operations running fluently. Computerized, real-time access with next day delivery from their highly automated circulation center is an alternative option. The web-based K-Link system assists sellers with online parts management, service and acquisition for all major lift truck models.

At Komatsu Forklift U.S.A., Inc. they know how to serve Countrywide Accounts. Many world-class firms rely on Komatsu forklifts in their everyday operations. Nationwide account consumers profit from an original relationship with Komatsu that allows them to tailor cost-efficient services in order to raise the customer's productivity and profits. Komatsu countrywide account clients have access to on-line parts and service support system and a comprehensive fleet management program, offering the ability for Komatsu to be their total solution for any lift truck concerns.

The resourceful and dependable staff members at Komatsu Forklift U.S.A., are committed to offering excellent customer support whether it arrives in the form of education, product sales, aftermarket support, and longterm maintenance. They want to make sure that the customer support offered will help their clients satisfy or exceed their company targets while establishing strong working relationships in the process. Komatsu strives to identify with each of their customers' distinctive ways of doing business and enjoys working together to develop an arrangement to best insure their ongoing success.

Komatsu invites you to contact your local Komatsu forklift dealer today in order to discover more about the selection of services and products they have available. Customer satisfaction and support are two of the organizations top priorities and it is easy to see why thousands of clients world-wide depend on the Komatsu family of products on a daily basis.
