

Clark Forklift Part

Clark Forklift Parts - Performing worldwide, there are currently 350,000 Clark forklifts and lift trucks in operation, with in excess of 250,000 of those in commission in North America. Clark has five main lines of lift trucks across the world, making it one of the most expansive corporations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, handles more than 120,000 individual items fabricated for 20 exclusive designs of lift trucks and automated equipment. Your local Clark Dealer is your complete source for availability of all your components requirements provided by Clark Totalift.

Clark has a extraordinary Parts Distribution team. The parts warehouses are conveniently located in Changwon, South Korea and Louisville, Kentucky to guarantee exceptional service to both their customers and their dealers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing producers. Motivated to provide the highest level of value and service to our users, Clark remains on the cutting edge when it comes to enhancing productivity and benefiting performance.

Worldwide, Clark has one of the most impressive dealer support networks. With over 550 locations globally, dealer representation in over 80 nations and 230 locations in North America, their high level of commitment to their consumers predominates the material handling industry.

By revolutionizing the operator restraint system protection feature, Clark proudly remains a leader of innovation in the industrial equipment and automated forklift industry. This exceptional dedication to safety is at this time a standard feature on every lift truck.

Clark has a continual objective to possess the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be globally certified with quality standard ISO 9001 in all of its production plants. Also, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be prepared for any number of environmental restrictions, thus placing them in a prevailing industry position.

Clark has selected the system of "Lean Production" at all of its assembly facilities because this system is particularly economical and allows for minimal use of resources. Developed to guarantee maximum proficiency, this system is intended to discover and acknowledge the most efficient ways for manufacturing facility management. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers join together to improve the effectiveness and brilliance of their products while minimizing expenses. The contemporary value engineering agenda combines innovative product development and provides improved customer support and service within the industry.
