

TCM Forklift Parts

TCM Forklift Parts - Forklift trucks are an important player in the material handling field of each and every international business. Transporting industrial goods occurs each and every day on our industrious planet. First innovated as industrial vehicles in the 1930s in America, forklifts gained popularity after WWII in the 1940s. Becoming an efficient and reliable means to material handling solutions, the need and practicality of these machinery spread worldwide.

Initially established as Toyo Carrier Manufacturing Company Limited, in the year 1949, the company was later renamed Toyo Umpanki Co. before becoming known as the TCM Corporation. Established by Mr. N. Niwa manufactured Japan's very first lift truck. Throughout the years, TCM forklifts have become an international leader in forklift manufacturing and have built a solid reputation in the business. TCM began building lift truck manufacturing sites outside of Japan during the 1980s and is currently engaged in forklift manufacturer at three foreign factories in Europe, China and the United States.

TCM proudly makes several models of industrial forklifts with more than 50 years of accumulated technology and expertise, making their products recognized and used all around the globe. Characterized by energetic staff and strong initiatives, TCM continues to look toward the future and intends to become a world-class leading business.
